The Certificate IV in Laboratory Techniques offers technical training in laboratory techniques across a range of industries. This qualification builds on the basic knowledge and skills obtained in the Certificate III by adding further techniques to conduct sampling and testing in a variety of industry sectors.

**Entry requirements**
Certificate III in Laboratory Skills is recommended or appropriate laboratory experience.

Each student will undertake a Pre Training interview before enrolling to help confirm the proposed course is suitable. It will provide valuable information about an individual's existing skills and knowledge, language, literacy and numeracy skills and whether the course will help in achieving learning and/or employment goals.

**Job outcome**
This qualification could lead to employment as a laboratory technician in a range of research and industrial settings such as dairies, wineries and mines. The improved skills and knowledge will enable you to proceed into further education in this area. With employment, there is a direct pathway into the Diploma of Laboratory Technology.

**Further study**
Diploma of Laboratory Technology

**Expected time to complete**
3 Years
